and what have you

by BOB CRAIG

With the tremendous need for moisture in the area it was a pleasant surprise to wake up Wednesday morning to the gently falling snow. There seems to be enough kid in all of us to enjoy the sight of snow at anytime but even more so when it has been so long since we have had a good rain.

I am sure that where it snows most of the winter the people get as tired of snow as we do of dust around here. But here where we get snow only a few times a year it always seems to put a smile on everyone's face at least for the first day of the spell.

As is normal for this part of Texas we seem to have our seasons mixed up again, we had spring and summer in January and February and now we are having our winter in March.

With the opening of Heidenheimer's new store here in Hamlin we would not only extend them a welcome to our city and wish them the best of luck here but we would also like to note the passing of an old established friend of Hamlin's, Malouf's Department Store.

After being in business here for 22 years, the firm and its owners, Mr. and Mrs. George Malouf, will be missed. We hope the Maloufs will continue to make their home here and remain a vital part of our community.

When the report from the local Fire Department came in this week we noted that they had made 40 calls in only 72 days this year as compared to 55 calls during the entire year of 1961.

It seems a shame that men who are serving without pay should be taken from their jobs and their home for so many apparently unnecessary trips. As residents of Hamlin we should all take an interest in doing our part in being more careful about fire.

C. F. Cook, superintendent of our local schools, has been invited to take part in a regional meeting of the Texas Association of School Boards to be held in Denton on Friday, April 27. He has been asked to serve on a discussion group at this meeting on School Finance. It speaks well for our superintendent to be asked to take part on panels such as this and it is good for Hamlin to be represented in this manner.

Out of respect for the great accomplishment of John Glenn, America's first Astronaut, the fifth grade music classes of Mrs. Willard Maberry have each written songs for the occasion.

The song composed by the 5A class of the Elementary school entitled "John Glenn, the Astronaut" is reprinted here:

John Glenn, was an Astronaut, fearless was he,
He went up in space as brave as could be,
He trained three years with all his might,
That the day would come when he'd make his flight,
His wife was not worried, his children not scared,
As he went up in space his rocket ship flared,
His capsule was named the Friendship 7,
It went so high it almost touched heav'n,
He circled three times and landed free
Was picked up by the Noa in the Caribbean Sea.
The 5B song entitled "John Glenn, The Astronaut" is as follows:

John Glenn, the astronaut trained three years,
To circle the earth with out any fears,
He soared up high in his nose cone,
And all were thankful when he got home,
His mother was fearless, father was brave,

COUNTY SCREWORM COMMITTEE SEEKING ADDITIONAL FUNDS

Charlie Myatt, chairman of the Jones County screwworm eradication program committee says, "Texas stockmen and others have contributed over one million three hundred and thirty-three thousand dollars to the screwworm eradication program." "The goal for the state has been set at three million dollars," says Myatt. To date, Jones County producers have pledged over \$4,000.00. He urges all those concerned who have not already contributed to leave their contributions with Anson, Stamford and Hamlin Banks.

The federal government has pledged to match the producer-raiser funds in this all important program. Mr. Myatt wishes to thank all of those workers who have helped in the fund solicitation campaign and those who have made their contributions. The screwworm eradication program is a reality and is evidence of what group action can accomplish.

The screwworm eradication program is in its second week of operation in Texas. Five million sterile screwworm flies were released in the lower Rio Grande Valley last week," says Jones County Agent, Kirby Clayton. "The first phase of the eradication program, the raising of funds to support the program, is almost complete. The second phase of the eradication program is just beginning. The individual stock owner will play an important part in this phase of the eradication program," says Clayton. "A buffer zone in the Southern portion of Texas along the Mexican border will be maintained," officials in charge of the eradication program say. If the eradication program is to be effective, the individual rancher must inspect his livestock frequently—treat screw-

Heidenheimer's Open New Store This Week

Heidenheimer's of Hamlin, the city's newest department store, is announcing the opening of their new store with a grand opening sale this week end. The local store became the sixth store in the Heiden-

heimer operation when the company bought out Malouf's Department Store some time back.

David Casey, formerly of Anson, partner and general manager of the local store has

been associated with Heidenheimer's some eight years, starting with the Ballinger store. He moved to the Anson store around five years ago.

He was reared at Winters and is married to the former Ketta London, who was born in Anson and is a granddaughter of Mrs. J. P. London of Anson. They have three small girls.

Mr. and Mrs. George Malouf sold out to the Heidenheimer stores the first of February after being in business here for the past 22 years.

The new store will seek to maintain the good reputation of its successor, while the long established policies of Heidenheimer's are being incorporated, Casey said.

Merchandising and credit standards characteristic of the other stores will be set up and maintained, he said.

Other stores in addition to the Hamlin store, are at Anson, Winters, Ballinger, Cisco and Abilene.

The parent store, in Anson, was established in 1919 by the late A. Heidenheimer, who was an uncle to Jim Heidenheimer, manager of the Anson store since 1937.

During the grand opening the store is giving free door prizes, free gifts and favors for the children. The store has been restocked with new merchandising following a month of cleaning up and rearranging. As part of their grand opening the store is offering big reductions in all departments, according to Casey.

A Cleaner City Rated Top Need in JC Survey

(Editor's note: This is the fifth and the final of a series of articles based on the results of the recently completed Community Survey Questionnaire circulated by the Hamlin Jaycees.)

In this the final look at the results of the Hamlin Jaycees' questionnaires it would seem that the people would like a cleaner city in which to live in.

In answer to the question for suggestions to help improve our city the most repeated line of thought was to clean up the city in one form or another. This included a general clean up program, clean up vacant lots, more trash pickup, improve downtown build-

ings, clean gutters and streets, condemn and destroy unsightly buildings and pave streets.

Other leading suggestions for the improvement of Hamlin were youth center and youth recreation, modern restaurant, modern motel, industry, civic pride and a rest home.

Some of the other things suggested on this question were: dog catcher, traffic laws enforced, support Jaycees and BCD, rest home, development of lakes, lower water rates, zoning regulations, civic center and landing strip.

In the final question on the questionnaire asking for the number one need of our city and why the most repeated

theme was for something for the youth, both recreation facilities and a youth center.

Other things in contention for the number one need of Hamlin was more industry and work for more people, a fine restaurant and motel and co-operation among the citizens and organizations of the city.

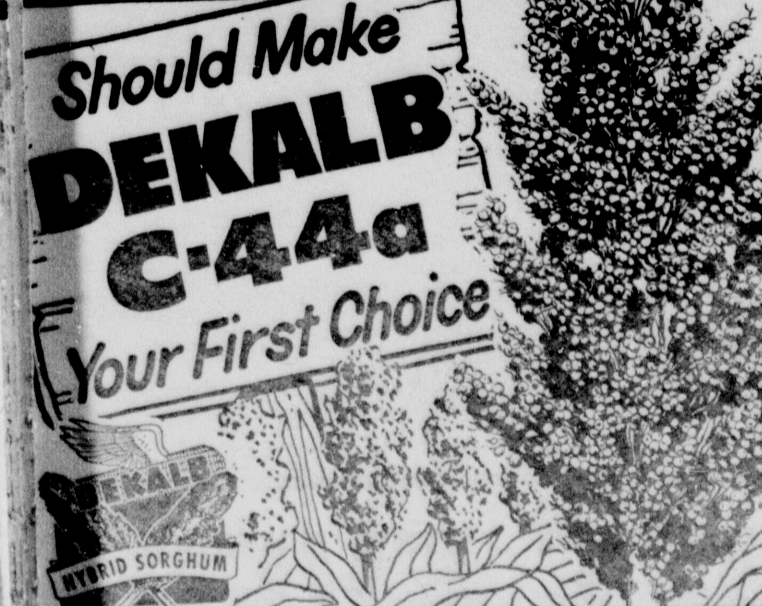

Other things suggested as the number one need were paved streets, housing civic pride, better traffic law enforcement, park for children, more stores, street lighting, a rest home, re-modeling of the downtown buildings and better pest control during the summer.

DePriest Students Attend Student Council Meeting

A group of students from the Student Council of Oscar DePriest School attended the Lone Star State Association of Student Councils Eleventh Annual Convention that was held in Texarkana, Texas, March 1, 2 and 3.

The delegates made a report to the student body on Wednesday during Public School Week. They reported that the meeting was both interesting and informative. The theme of the meeting was "An Agenda For A New Age."

Those who attended the convention were the president, J. W. Owens, Hardy L. Nabors, Bertha M. Douglas, Bettye L. Johnson, Estell Willis and Richard A. Johnson. These students challenged all eligible students to join and support the student council. They assured them that the student council is a valuable student organization and deserves much consideration.

Mr. and Mrs. Clarence Eoff of Bakersville, Calif., visited during the week with Mr. and Mrs. W. C. Eoff. They also visited with their brother, Odell Eoff, who is seriously ill in the Merkel Hospital.

Reavley Seeking State Attorney General's Office

AUSTIN — Former Texas Secretary of State Tom Reavley, making his first statewide campaign address, described himself this week as "a Democrat... an old-fashioned, independent progressive" and a candidate for Attorney General determined "to fill this office—not just use it for political advantage."

A native of Quitman in Wood County and a former resident of Lufkin and Jasper before coming to Austin to serve as Secretary of State, Reavley's fresh approach in Texas politics and his insistence on serving "all the people of Texas—not just those few absorbed with partisan intrigue" have tagged him as one of the most stimulating personalities in state affairs in years.

A 40-year-old Austin lawyer, Reavley is making his first race for statewide office. He

was appointed Texas Secretary of State in 1955, served in that capacity for 15 months before resuming private practice. He was an Assistant District Attorney in Dallas, County Attorney in Nacogdoches, President of the State Junior Bar, professor of criminal law at the University of Texas, and a leader in the twelve-year struggle to eliminate loan shark abuses in Texas.

DePriest Holds Open House for 'School' Week

The DePriest school observed open house during "Public School Week." Emphasis was placed on the theme "Our American Heritage."

Display of students work was placed where parents could see the type of work their children have been doing during the school year. Each room had its own registrar during the week.

Thursday night Rev. Ed-

mund W. Robb, pastor of the States First Methodist Church, thrilled an audience of 167 parents and friends with an address on Our American Heritage. The choral group furnished the music for the occasion.

TEACHERS MEETING

School was dismissed last Friday in order for the teachers to attend a meeting in Abilene. The students welcomed a holiday, but the teachers probably enjoyed getting away from it all for a day too. Teachers attended various luncheons at noon according to their field or interest. They all reported delicious food and good entertainment and good speakers.

Mrs. Milton Dudensing sponsored a group of youngsters from the St. Paul Lutheran Church for a visit to the local Church of Christ service Sunday night. The group included Helen Lowack, Nancy Vahlenkamp, Marva Dudensing, Billie Vahlenkamp, Joy Nierdieck, and Tommy Nierdieck.

SAN DIEGO, CALIF.—Burl L. Young, chief hospital corpsman, USN, son of Mr. and Mrs. Charles E. Young of Route 3, is serving with Beach Jumper Unit One, a unit of the Pacific Fleet Amphibious Force, headquartered at San Diego, Calif., which celebrates its 20th anniversary Feb. 20.

Established on Feb. 20, 1942, the force spearheaded such World War II amphibious campaigns as Guadalcanal, Leyte,

Iwo Jima and Okinawa. Today, approximately 20,000 men assigned to some 70 ships and supporting units make up the force, commanded by Vice Adm. Howard A. Yeager. The Pacific amphibians are capable of transporting and landing combat-ready Marines and their equipment across the beaches of any trouble spot in the Pacific, the Far East or Southeast Asia.

Over 22,000 families of 4 or more children of deceased parents averaged \$157 in social security checks for December of 1960.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Man's first reactions to another is based on outward appearances, and only time will help him to know the heart of another. God knows, immediately, every attitude of the heart, whether it is good or bad.

"Blessed are the pure in heart: for they shall see God."

There are many rewards for those that follow the Lord. *"Let the heart of them rejoice that seek the Lord."* Attend church Sunday and share in the joy of worshipping the Lord.

COLUMN-

(Continued from page one)

While his service and skills he gladly gave, His wife's and children's faith was strong, In hopes that in space, nothing would go wrong. "The Astronaut" is the title of the 5C song composed as follows:

John Glenn, the astronaut chosen from sev'n, He circled the earth almost to heav'n, The sight was beautiful, The horizon was blue, As John Glen did what he started to do, He shot off the rockets his capsule was free, The Astronaut landed in the deep blue sea. The nation is grateful for this brave man, And we all wish we could shake his hand.

'RABBIT FEVER' ON INCREASE IN TEXAS-HEALTH DEPARTMENT

AUSTIN—Tularemia—alias "rabbit fever"—increased in Texas last year compared to 1960. The actual number of cases, 13 during 1961 as against nine for 1960, is not startling, but is of concern to victims and to people engaged in communicable disease control. The figures are tallied each week by the Texas State Department of Health from reports gathered throughout the State. In all probability there were actually more cases than were reported.

Tularemia is caused by an oval-shaped organism called Pasteurella tularensis in dubious honor of Tulare County, California, where it was first discovered as an infection of wild rabbits and squirrels.

The disease is transmitted to humans by the bite of an infected fly or tick, or when the germ is accidentally introduced into the body during the process of dressing wild game. It can also be acquired by eating insufficiently cooked meat from an infected game bird or animal. The death rate of untreated cases is usually about five per cent.

The infection has been and is still known all over Texas, but is reported most often from the eastern section of the State. Outdoorsmen are more susceptible because of a greater chance for exposure.

According to the best authorities, on a nationwide basis 90 percent of human cases are acquired from rabbits, chiefly wild cottontails. Other susceptible native animals are coyotes, opossums, skunks, deer and some species of snakes.

As for domestic animals, natural infections have been found in cats, dogs, hogs, and sheep. Among susceptible wild birds are quail, chicken hawks, and horned owls—all native to Texas.

What's different about Rambler's rustproofing?

It goes all the way up to the roof. Only Rambler has Deep-Dip rustproofing—entire body immersed in primer paint right up to roof—plus 8 other body rustproofing steps.

What's different about Rambler's brakes?

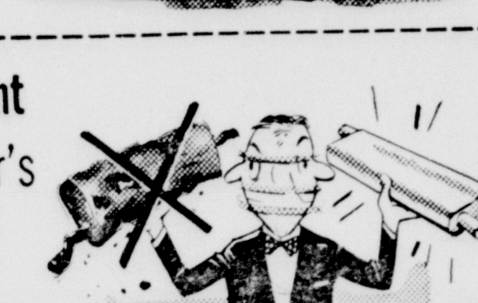

They stop when other brakes can't. Double-Safety Brake System has tandem master cylinders. If front brakes fail, rear brakes still work and vice versa. Self-adjusting brakes standard, too.

What's different about Rambler's headroom?

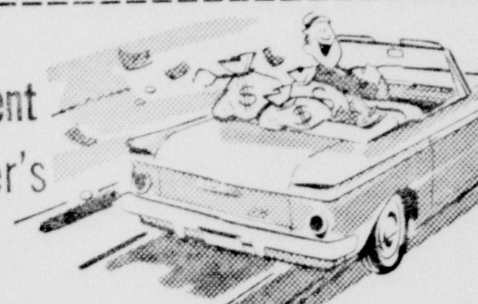

It's greater than any other American car's. Rambler Classic 6 and Ambassador V-8 beat all other makes in front-seat headroom (even Cadillac)—can seat six 6-footers easily.

What's different about Rambler's muffler and tailpipe?

They won't rust out. Ceramic-Armored muffler, tailpipe guaranteed against defect as long as you own your new Rambler. If either rusts out, collision damage excepted, a Rambler dealer makes free replacement.

What's different about Rambler's prices?

They're America's lowest. Only Rambler brings you America's lowest suggested retail prices for convertible, 2-door and 4-door sedans and wagons—all quality-built with Rambler excellence.
